

AWA, HAN-EN, HOSHI

NENDO, 2024

Awa, Han-en, Hoshi sono una serie di giochi didattici in legno di rovere che interpretano i temi dell'equilibrio e della composizione a partire da diverse geometrie semplici ed iconiche nel segno della tradizione educativa di Danese.

Awa, Han-en, Hoshi sono tre versioni basate su cerchi, semicerchi, e stelle stilizzate.

Ogni set è formato da elementi singoli o composti, identici nelle dimensioni o con cambi di scala, per stimolare la creatività e libertà compositiva nel gioco di equilibri che nasce dalla loro sovrapposizione.

Un bilanciamento di pesi e di toni cromatici nelle versioni colorate permette di creare piccole sculture.

Awa, Han-en, Hoshi are a series of educational games made of oak wood that interpret the themes of balance and composition playing with various simple and iconic geometries in keeping with Danese's educational tradition.

Awa, Han-en, Hoshi are three versions based on circles, semicircles, and stylized stars.

Each set consists of single or composed elements, identical in size or with changes in scale, to stimulate creativity and compositional freedom in the interplay of balances that arises from their stacking.

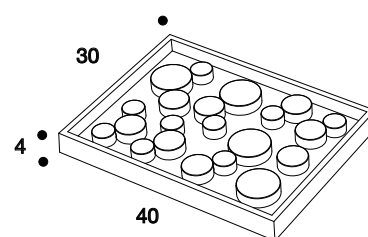

A balancing of weights and color tones in the colored versions allows the creation of small sculptures.

MATERIALE • MATERIAL

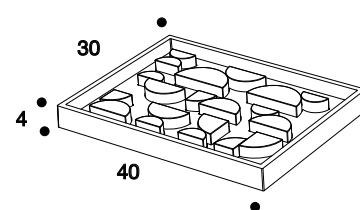

Legno di rovere naturale o laccato con vernice opaca • *Natural oak wood or lacquered with matt varnish*
